

ENGLISH

FR-PL100KR

High Bay LED headlight for indoor and outdoor use, equipped with SMD type LEDs.

Its construction allows to replace traditional lighting bodies in industrial installations with extreme simplicity.

Equipped with pre-wired cable for a quick electrical connection and suspension eyebolts to be hung with chains, carabiners and retaining cables.

Specific for the industrial applications

Compact

The light and compact system allows an installation of absolute ease.

The practical eyebolt in the upper part of the body allows you to hook the headlight and easily adjust its height from the ground.

Elegant

Glossy finish, black body and shatterproof glass.

They make it an aesthetically pleasing object, elegant in the environment in which it is placed. The power cable is located in the upper part and allows it to be easily attached to the support cable.

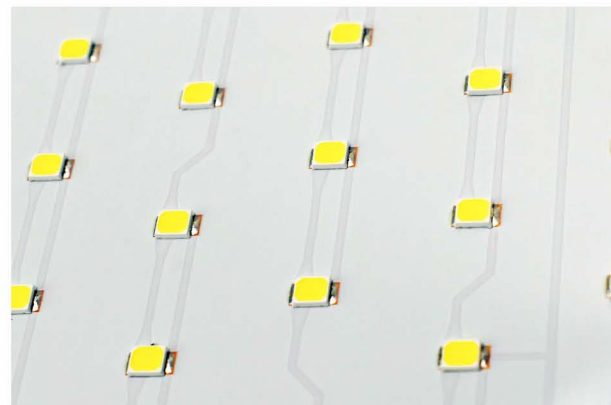

FRIGGERI

10.000 Lumen
Light temperature
5.700°K

100_W

equivalente a
1.000w alogeno
equivalent to
1.000w halogen

Efficient

Designed and built in compliance with the strict EU eco-design regulations.

The result is an extremely efficient system, with a very high lighting capacity for the same power used. Designed to last over time to cope with the problems of WEEE disposal.
