

ENGLISH

FR-PL300ZN

Powerful and compact LED spotlight for outdoor use, equipped with SMD type LEDs.

A concentrate of very high power with extremely compact dimensions, facilitates the installer to solve lighting problems in large areas such as courtyards, warehouses and industrial environments.

Equipped with electric cable and inspectable in case the installer needs wiring directly inside the body.

Wide area lighting

Compact

The compact system allows for absolute ease of installation. It guarantees a very high illuminating power in a small body. The fixing bracket is very sturdy to ensure a stable and long-lasting anchor.

Elegant

Glossy finish, black body and shatterproof anti-reflective satin glass. Make it a design object, elegant in any environment in which it is placed. The glass is removable and replaceable by acting on the fixing clips.

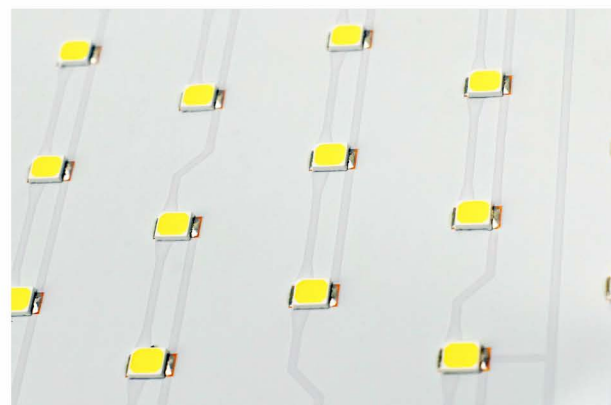

FRIGGERI

30.000 Lumen
Light color
5.700°K

300_W

equivalente a
3.000w alogeno
equivalent to
3.000w halogen

Efficient

Designed and built in compliance with the strict EU eco-design regulations. The result is an extremely efficient system, with a very high lighting capacity for the same power used. Designed to last over time to solve the problems of WEEE disposal.
